Title: scratches of parchment

Author: Zachary

I have been scavenging
for food and water, the
area is so abundant with
life it's not hard.

Crawling around. Illusion
doesn't work that way,
illusion simply tricks the
senses into believing
something that isn't there
is there. I could easily
make it appear that I
have feet, but there
wouldn't actually be feet.

Illusion is nothing like
voidcraft. If I tried
standing on feet that
didn't exist, especially on
freshly healing wounds, I
would only hurt myself.
